Stronger Together

**What is the thing that makes
a country gets better?**

People.

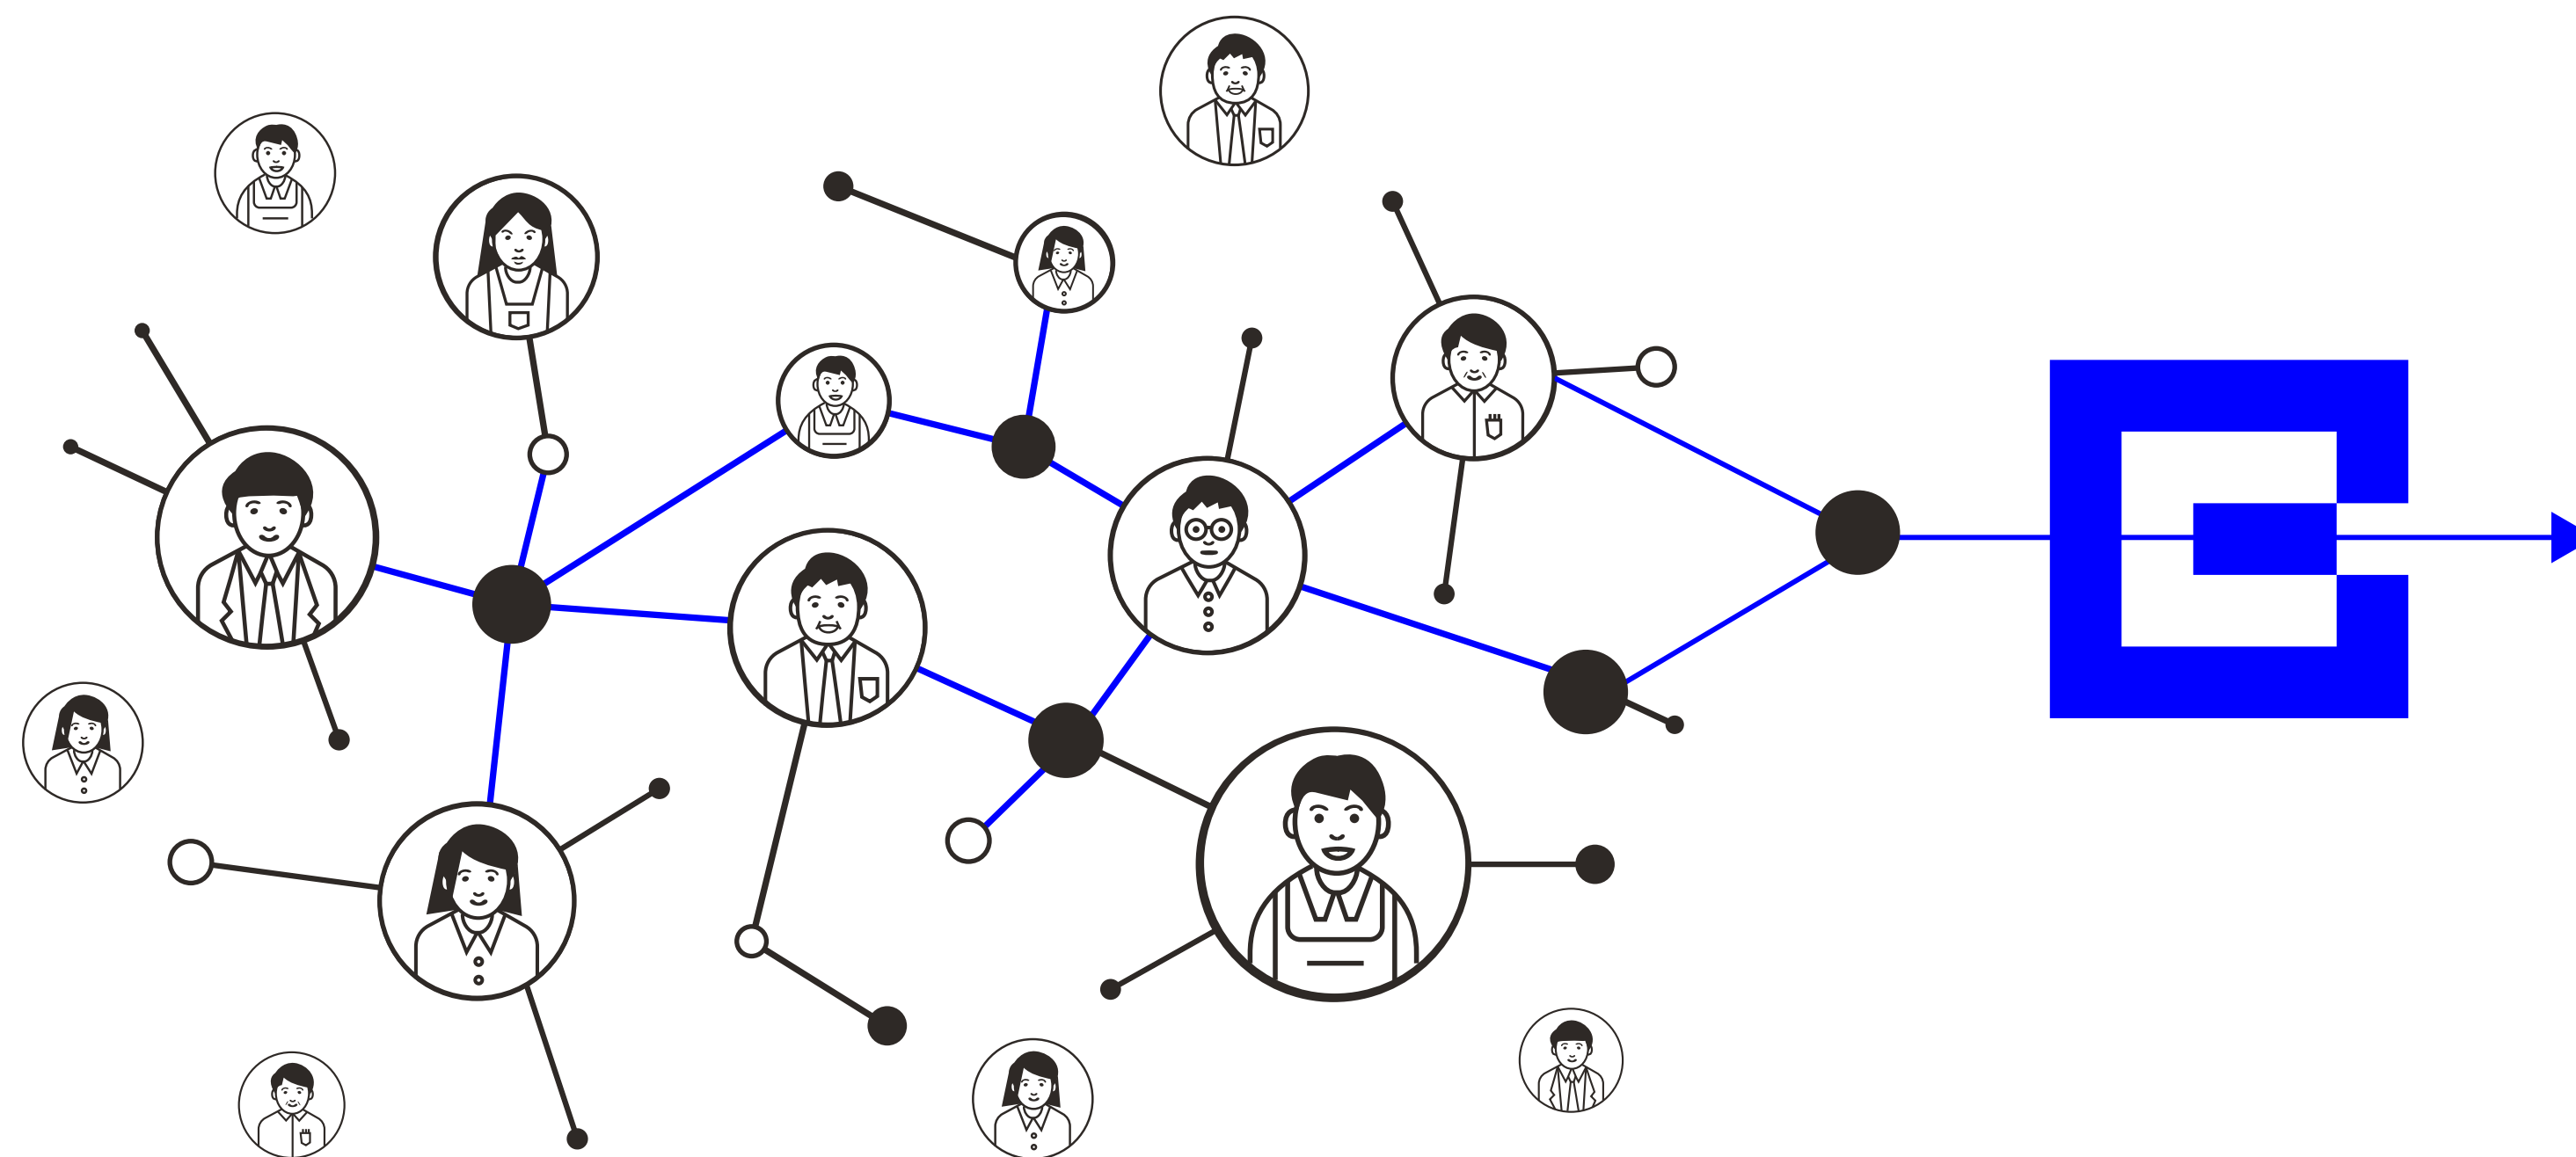

Each person in Indonesia loves Indonesia.

But, what happens when people get together?

At that moment, everything gets better.

Because together we are stronger.

Why do Small Companies in Indonesia have difficulties growing?

We have found the solution to a big problem in Indonesian business.

Historically small industrial companies in Indonesia have faced problems in growing their business, especially when we talk about access to raw materials.

The main problem has always been accessing the purchase of raw materials directly from large companies. Finding the exact quantity and quality at the right time, logistics, and financing for payments could be a job of several days.

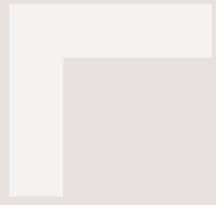

A digital space that groups little buyers

But, what would happen if you buy your raw materials with other little buyers?

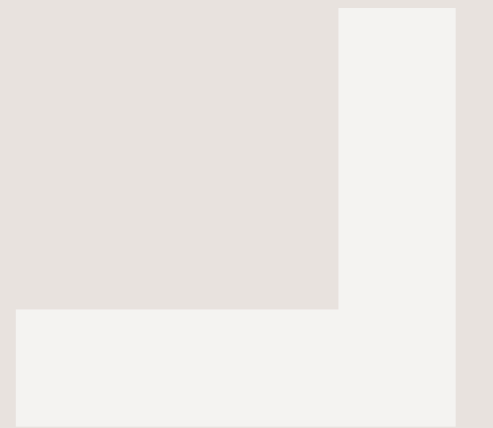

There are a lot of problems when you want to buy raw materials as a little buyer in a business-to-business ecosystem.

Bliztnet super-platform technology was designed to **join little buyers into a big buyer group**, allowing access to all types of raw and manufactured materials.

**That's its blitznet.
A digital space where
little buyers group to
empower their business.**

Connect to a new way of doing business

**Less time, best prices,
better terms and conditions.**

blitznet is a super-platform created for MSME and big companies that believe in a better Indonesia.

Our ecosystem collaborates in boosting efficiency for small to large businesses companies that wish to grow.

We are stronger when buying together
